A TALE OF PURITAN TIMES.

BY ONE OF HER DESCENDANTS.

12 mo. cloth. Price $1,25.

A more charming tale has rarely made its appearance in any country. The scene is laid in Boston, at the time of the religious persecution of the Quakers by the Puritans, and this circumstance adds very great interest to a tale which does not require any such fictitious aid, but whose intrinsic qualities are sufficient to fasten the readers attention and deeply move his sympathies, as well as enforce an admirable moral lesson.

We add a paragraph from the book itself.

The world is aware that the early history of the Quakers in New England fills a page in her records which the descendants of our Puritan ancestors would gladly seal forever from the eyes of men. The time of these occurrences is yet too recent for justice to either party to be awarded.—The consciousness of a cruel intolerance on one hand, and the remembrance of wrong on the other are yet too fresh in the minds of their descendants and years must pass away before either can regard the other with impartiality. But our historians and others should remember that the blot is only made deeper through attempts to excuse those deeds of cruelty by false representations of their victims, and it becomes the duty of every faithful representative of those times to depict their characters with fairness and to do justice to the motives that influenced their conduct.

THE SLAVERY QUESTION BEFORE THE SUPREME COURT. It appears not to have been generally known that a case involving two of the most important questions in the slavery controversy was argued before the Supreme Court at Washington last week—although without any adequate preparation, at least in behalf of the free soil sentiment of the country. The Washington Star states that the case was No. 61, Dred Scott plaintiff in error vs. John F. A. Sanford. Mr. Montgomery Blair for the plaintiff in error, and the Hon. Messrs. Geyer and Reverdy Johnson for the defendant in error. The points particularly in issue are, first, the right of citizens in slaveholding States to carry their slaves into non-slaveholding States for a temporary sojourn there, without the loss of their right of property in such slaves; and, next, the constitutionality of the Missouri Compromise, as involved in the question of the right of Congress to legislate with reference to Slavery in United States Territory. The decision has not yet been given.

The Tribune states that a gentleman who heard the arguments, thinks the case not strongly put on either side, and says, "that able counsel would have volunteered in behalf of Freedom, had they had the least intimation that they were wanted."

The snow storm on Sunday and Sunday night was the most violent which has been experienced in this region for several years. The amount of snow which fell would not probably exceed fifteen inches—on a level—but the high wind which prevailed from north and north-west during the night, and after most of the snow had fallen, blew it into mountainous drifts, which have rendered the roads for the present almost impassable. The piles of snow in our streets, on Monday morning, were some of them eight or ten feet deep, and the job of clearing the sidewalks was one which old Hercules himself might have deemed worthy his attention. The business streets were soon made passable—but our active and energetic Street Commissioner and his force had a formidable undertaking in other quarters.

The train of the Penobscot and Kennebec Railroad was cleared of snow in season for the morning train to Waterville to make nearly its usual time.

No Boston train had arrived at Portland up to 8 o'clock last evening. The train from Waterville left at 5 and arrived here at 11, last evening.

PREPARATIONS TO INVADE KANSAS. A correspondent of the New York Journal of Commerce, says that the Free State party is the weaker party, [illegible] distance from the source of supply and succor must expose it to the mercies of the infuriated and lawless bands who [illegible] its destruction, and who rely for immunity from reproach or punishment upon the [illegible] of the whole South. They have their own State behind them, and can find safety in retreat and renew their invasion at pleasure. Thus the interposition of the general government will act directly and fatally upon the Free State inhabitants, by depriving them of the supplies of men and arms which they solicit from the Northern States for their defence, and as soon as the government forces have performed this mission and retired, the work of destruction and massacre may in safety begin.

IMPORTANT FROM NICARAGUA. The Walker-Rivas government of Nicaragua has issued a circular to the different governments of Central America assuring them of its cordial good will and proposing a Central American Republic.

Mr. Manning, the British Consul at Realejo, recognizes the Nicaraguan government, and says, "The government of Her British Majesty will be disposed to sympathise with you so long as the affairs of this country shall be conducted in accordance with the usages and in conformity to the laws of nations."

The most important news from Nicaragua is the information of the suspending of diplomatic relations between that government and our own. Jan. 22d the Nicaraguan government issued a decree announcing that all official communication with the Hon. J. H. Wheeler, U. S. Minister residing in that Republic, has been suspended, and Hon. P. H. French has been recalled from the United States to give an account of his mission.

The editor of the Gospel Banner riding to an appointment one Sunday morning, saw a man in the distance chopping wood with only one hand. He was, at first, shocked at this disregard of the day. Then the thought of the poor fellow's one-armed condition suggested several excuses, some of which theology refuted, but finally, charity allowed that he might be without sin. As the editor reached this good conclusion, he also reached the man, and discovered, to use his own words, that "the lazy varlet was at work *with one hand in his pocket!*"

The New York and Albany banks have presented $2[illegible] to John Upton, express messenger, who guarded vigilantly a million of dollars which he had under his care at the time of the accident on the Hudson River Railroad. He remained at his post seven hours during the inclement night, although his leg was broken.

DISTURBING SCHOOLS.—Two boys, eighteen years old were tried by the city court, on Saturday last, and fined, for disturbing one of the city Schools. Let this be a warning to other refractory boys.

There were built in Bath district, during the year 1855 47 ships, 4 barks, 5 brigs, 7 schooners, 1 steamer, 8 boats, with an aggregate tonnage of 50,900 tons.

The New Bedford Mercury says between 8000 and 9000 barrels of whale oil have just been sold in that city, a large part on European account, at prices ranging from 77 to 80 cents.

City Council—Special Meeting.

MONDAY AFTERNOON, Feb. 18, 1856.

Pursuant to notice from the Mayor, the City Council met in convention.

The Clerk of the Common Council being absent, N. H. Dillingham, Esq., was chosen Clerk pro tem.

A Communication of the Mayor, relative to Order of Notice of Legislature, on the subject of the Consolidation of certain Railroads, came up. Read and placed on file. The following is the communication:

To the City Council:

GENTLEMEN—A Bill has recently been brought before our State Legislature designed to authorize certain Railroad Corporations to consolidate into one or more Corporations, in manner as therein provided. Among the roads, enumerated is the Penobscot and Kennebec Railroad to which the city has loaned her credit in the sum of $800,000, under previous acts of the Legislature.

From examination of the proposed Bill for consolidation, it would seem that the rights and interests of the City are not fully protected and clearly defined. I have therefore deemed it my duty to call you together, that you may authorize such action in the premises, as in your judgment the case may require.

Some of the points where the interests of the City may be compromised by the Bill proposed may be stated as follows:

At present the city has the right to choose one member of the board of Directors, and a majority of such board are required to be residents of Bangor. No provision is made for this in the proposed Bill.

It is also proposed to exempt the stock of the said roads from taxation for twenty years, and to relieve them from the application of the general law which makes stockholders personally liable, to the amount of their stock, for the debts of the Corporation.

But perhaps more than any or all of these, is to be apprehended from the provisions of the Bill, that the property of each corporation consolidated, shall pass over to and be merged in the new company. This would not at all affect our lien upon property now held by the Penobscot and Kennebec Road, but it must be borne in mind that during the fifteen or twenty years elapsing before the city scrip issued to them becomes due, nearly all the personal property, including the rolling stock, will be worn out, and replaced with new, and the identity of what may remain, it may be difficult to establish. The superstructure of the road will also have to be renewed to a very great extent, including the iron, and that this will be done in such a manner as to secure the rights of the City, may be uncertain.

It may probably be very desirable to the Railroad Corporations to consolidate, thereby materially diminishing their expenses of operation; but so long as the City is interested, as at present, it is clearly the duty of those entrusted with the management of her affairs, to use all possible means not only to secure unimpaired, all the rights she may at present hold, but to see that they in no way become so entangled and intermixed with other charters, as only to be eliminated by an expensive and tedious action at law.

J. T. K. HAYWARD.

Ordered, That the Mayor, and such counsel as he may deem advisable, be, and they are hereby authorized and empowered, to proceed to Augusta, as the agents and attorneys of the city of Bangor, to look after and see that the bill for the consolidation of certain railroad corporations, now before the Legislature, be so worded, and in every respect so framed as to protect all the rights and remedies of the city of Bangor, which they now have, by certain acts of the Legislature, under which the city has loaned its credit to the Penobscot and Kennebec Railroad Company, and to protect in behalf of said city against the passage of any act that does not fully protect the existing rights of said city.

Ordered, That Aldermen Patten and Messrs Thompson and Stewart be a committee to report on unfinished business.

Ordered, That the Mayor and Alderman Ricker and Messrs. Bartlett, Leighton and Ricker be a committee to ascertain and report the terms on which a settlement can be effected, of suits now pending against the city, in favor of Enoch P Davis. Passed in concurrence.

Ordered, That petition of Allen Marden, for abatement of assessment on main drain on Cumberland Street, be taken from the files, and Mr. Marden be heard in person before the Council.

Mr. Marden appeared and was heard upon the subject.

Memorial of Patrick Duffy referred to Committee on Streets and Highways, in concurrence.

Petition of David Hill et als., for ordinance regulating the sale of turkies. Referred to committee on By-Laws in concurrence.

YOUNG MEN'S BIBLE SOCIETY.—The storm of Sunday evening prevented the public meeting and Address at that time, as announced for the Anniversary; but quite a number of members were present, and some interesting remarks made by Rev. Mr. Woodhull and Rev. Mr. Caldwell. Officers were chosen for the ensuing year,—a list of which will be published hereafter.

We understand that a public meeting will be held soon, at which the Address will be delivered, as announced for last Sabbath, the Report of the Secretary made, and a collection taken in aid of the funds of the Society.

EXPOSURE. Two men, named Grover and Kittredge, went from this city to Pushaw Pond on Sunday, and the storm becoming violent towards night, they started for home, being on foot. Grover reached here safely about ten o'clock, but Kittredge became exhausted, and remained out all night. He was found Monday morning, by means of his dog, buried up in the snow, four or five miles from the city, and was still living, though senseless. He was brought to the city, and we understand was under the care of Drs Rich and Hamlin and another physician. He was living last evening.

California Correspondence.

Description of a Visit to the Mammoth Forest of California.

NEVADA CITY (Cal.) Jan. 15, 1856.

MR. EDITOR:—Perhaps some of your readers in the East may be interested to learn some facts, from an eye witness, with regard to this wonder of the Sierras' the "Mammoth Forest of California."

These monster trees are situated in the north-eastern part of Calaveras County, near the head waters of the San Antonio river—about forty miles from the Sacramento Valley, and about two hundred from San Francisco.

Yesterday, at 1, P. M. I left the village of "Murphy's," a flourishing mining camp, for the purpose of visiting the famous place of resort, fifteen miles distant. The road leading thither is quite passable even for carriages, and the average elevation from Murphy's up, is 160 ft. to the mile, making the entire altitude above the latter place 2400 ft. This famous forest consists of about fifty acres, containing the tallest and the largest trees of any ever yet discovered.

The trees which receive the appellation of "monsters" are 92 in number; 85 of them being 18 feet and upwards in diameter.

There are 12 or 15 whose circumference is more than 80 feet, and whose height varies from 280 to 350 feet. One of the largest of these trees was felled in July 1852, and it required the services of five men 25 days to bore it down. The stump of this tree, 6 1-2 feet high, measures, the shortest way 25, and the longest 27 feet. Its diameter at the base is about 30 feet clear of the bark, which is from 8 to 22 inches in thickness.

There is a bowling saloon built on the tree itself, which is wide enough to accommodate all who are fond of "rolling."

During the past season there have been two theatrical performances on the stump of this monster tree, which I apprehend may be rightfully termed *stump* amusements.

The tallest tree of the forest has been blown over by the roots. Its length cannot be correctly ascertained, on account of a portion having decayed, but it was undoubtedly more than 400 feet, it being 8 feet in diameter, at the distance of 300 ft. from its base. Most of these trees maintain their natural proportions, tapering like pines or hemlocks in the East; but a few are proportionally larger at the base.

The circumference of the largest, which is called the "Father of the Forest," is 102 ft., according to the measurement of some it is 112 ft. This difference is doubtless made by drawing the line nearer its base.

I saw the tree from which the bark was peeled that was taken to the Crystal Palace in New York. This tree is stripped to the height of 120 feet, and the labor of depriving it of its porous covering cost about $1600.

The next tree, or log rather, of special importance which I shall notice, is the one through which so many have ridden on horseback.—Horses are kept here for this purpose, and the hollow is amply large to admit the horse and his rider through the entire tree—a distance of 75 feet, requiring the latter to stoop a very little in one place only.

Several of these trees have already received quite significant names; the hollow ones bearing the names of "Miner's Cabin," "Pioneer's Cabin," "Uncle Tom's Cabin," "the Horseback Ride," &c., and the sound ones receiving the appellations of "Father and Mother of the Forest," "the Three Graces," (being three beautiful trees standing near each other,) "the Old Maid," (a large tree standing lonely and alone,) "Master Shelby" (a tree standing opposite Uncle Tom's Cabin—both of which were named by a lady visitor from Sacramento) and a great many others, all of which are chronicled at the general register at the "Big Tree."

If there are any wonders in nature which will amply reward the admirers of nature's works, these mighty "Giants of the Woods" are certainly among them.

Yours, &c., D. L. E.

Governor Shannon was telegraphed at his residence in Ohio, by President Pierce, to appear in Washington without delay. In obedience to this dispatch the Governor is now in Washington. His nomination has not been called up in Senate.

The New Hampshire Straight Whigs have nominated Ichabod Goodwin of Portsmouth, for Governor, and E. P. Liscomb of Lebanon for Railroad Commissioner. Their action can help nobody but the Pierce party.

Gen. Wool has returned from Oregon to California, and says the Indian difficulties have been much exaggerated.

A Friend in need is the Balsam of Wild Cherry to all who are afflicted with bronchial troubles or Asthma. Its singular power over these diseases has rendered Dr. Wistar famous wherever pulmonary complaints are known.

The London Times has a remarkable article upon the difficulties between the United States and England, in relation to Central America, and practically concedes that the American interpretation of the Clayton and Bulwer treaty is just. It recommends the abandonment of British pretensions in that quarter. The Times says:

"Let us take our stand on the literal construction of the Clayton and Bulwer treaty, which accomplishes for us all that we can reasonably desire in Central America. Let us frankly give up our questionable right to the Mosquito protectorate and the Island of Ruatan, and, by way of delivering ourselves of the whole embarrassment at once and forever, throw the worthless settlement of Belize into the bargain. In return, let us call upon the American Government not only to observe its portion of the treaty, in respect of which we have hitherto had nothing to complain, but also to root out the gang of pirates and murderers who have taken forcible possession of the State of Nicaragua, and hold it in defiance of the will of both countries."

FAILURE OF BARNUM.—The New Haven papers report that at the meeting of the creditors of the Jerome Company, with which Barnum is so deeply involved, it was voted that the concern should go into bankruptcy, as there was apparently an inability to bring all the creditors into the proposed arrangement. The New Haven Journal says: "By this result the creditors will hardly be the gainers, though we have hopes that the extensive business of the concern will be preserved to our city." It also reports that "P. T. Barnum has been put into bankruptcy here, and Fredrick Crowell, Esq., has been appointed Trustee of his estate."

MISSING. We are informed that Reuben Crabtree, of Hancock, left the house of a Mr. Perry, in Sullivan, on the 27th ult., to go home, a distance, perhaps, of 4 or 5 miles, and up to the 3d inst., nothing had been heard of him. It is supposed that he fell through the ice and was drowned. He had been deranged. His age was 71 years and eight months.—*Ellsworth American.*

Profitable and Unprofitable Domestics.

The following is an extract from an excellent book recently published by Phillips, Sampson & Co., entitled "Plain Talk on Home Matters." Its sketches and suggestions are highly interesting and profitable:

It is manifestly just to pay higher wages to a capable girl, who does the work for a family of eight or ten persons, than could be afforded to one who performed the same offices for three or four only.

Said a neighbor to me the other day:—"Is it possible you pay Hannah Peck half a dollar every week for doing your washing, when she goes at eight o'clock and gets done by noon? Why, they say she goes in the afternoon of the same day and does Madam Grey's ironing, and gets half a dollar more! That's equal to a man's wages."

"Yes, and she has a man's energy and powers of endurance. She knows how to do her work well and quick, and spends no idle moments, indulges in no gossip, finds no fault with the number of pieces, expects to wash dirty clothes, not all clean ones, wastes no soap, burns only enough wood to do her work, waits upon herself instead of calling upon the kitchen girl to spend half her time running for her; and instead of being all day in the suds, keeping the kitchen drenched in slops and uninhabitable steam, as you say, she is done by noon, her floor washed, her dress changed; and having had her dinner, she says good-by, with a pleasant smile, and goes to Madame Grey's where she bakes, and irons, and accomplishes more than many a girl would with the whole day before her.

"Two weeks ago Hannah could not come to do my washing, as she had her sister's sick child to nurse.

"I sent for widow Town. She came at 6. Had an early breakfast prepared expressly for her. She could not drink coffee; must have fresh meat, (at Judge Jones's they generally had boiled chicken,) asked for cheese, (they always had cheese at Judge Jones's.) She started her fire, using nearly as much wood for her first kettle as Hannah would for her whole wash; soap ditto. She complained of the tubs, and of the hard water; said she was sure the clothes had been worn a fortnight; that it must be we had two weeks' washing; our wash-bench was too high; our clothes basket was too old to be decent; our clothes line was an awful unhandy place; and ended by wondering why girls would live with people who kept two tables, and said she knew lots of girls who had good wages, but had little to do, and could run in the streets half the time.

She wanted lunch at ten, with old hyson tea, (only mean, stingy people drank black,) dinner at one, a cup of tea again at three, (at her regular washing places they kept the tea hot for her all the time,) supper at five; and then asking for some sweet milk and a few slices of bread, as she had no time to cook at home, (Mrs. Judge Jones often gave her a whole loaf,) she took her departure, without having washed the floor.

The washing was the same size that Hannah gets out by noon! I need not ask which of the two is best worth the half dollar.

This same Hannah lived with me several years ago. She is an American woman, then thirty, strong, healthy, good tempered, busy as a bee from morning till night, obliging, respectful, thoroughly educated to her work—she was "worth her weight in gold." Blind and inconsiderate was I. She knew her capability, and demanded higher wages, which she well deserved. We did not give it, and she went to the city, where she became head manager of a house full of servants, and received three dollars a week. High wages for a woman, I know; but it would have been money in our pocket to have paid it from that time to the present.—The time and money and horseflesh spent in running after girls to replace the incapables and the intractables; the cookstoves, tinware, and crockery destroyed, and the wood unnecessarily burned, would much more than pay the difference in expense, to say nothing of the wear and tear of patience, and the comfort of having a person so capable and respectable in your [illegible].

Hannah is now a landholder, half money in the bank; enough to shield her from poverty, should the evil day come when she could not work. But she is not idle. She has an aged mother to support, besides brothers and sisters' children to help on in the world; and a better, happier, or more useful woman, in her sphere of life, one seldom meets."

LEGISLATURE OF MAINE.

FRIDAY, Feb. 15.

SENATE. An order came from the House, requiring the Committee on the Judiciary to inquire into the expediency of investigating certain Banks. It was passed in concurrence. Subsequently, on vote of Mr. Hoagan, the vote was reconsidered, and the order laid on the table.

Petitions, &c., Referred. Of John A. Pettingill and others, for a free bridge at Augusta; of Cyrus K. Bodfish, that the Land Agent be authorized to sell the interest of the State in land at Fort Kent.

Read and assigned. An act to incorporate the Corinthian Royal Arch Chapter; Resolve authorizing Land Agent to sell plantation No. 14, E. D.; an act increasing the salary of the Register of Probate for the County of Penobscot; a resolve authorizing the sale of stock of the State in the Augusta Bank.

HOUSE. Resolve authorizing State to sell its stock in the Augusta Bank. Passed to be engrossed.

Mr. Irish of Union, by leave, laid a bill upon the table for the suppression of intemperance. Referred to Committee on Judiciary.

Mr. Foster of East Machias, from the Committee on State Lands, reported a resolve in relation to the settlement of the account of the Land Agent.

Mr. Fuller of Augusta, moved that the resolve with regard to the Oldtown election case be taken up, and Tuesday assigned for its consideration.

Mr. Duren moved that Wednesday be assigned, and the House having divided, the motion prevailed.

Read and assigned. Bills to incorporate Foxcroft Manufacturing Company; to authorize Waldo T. Pierce and als. to bridge the Kenduskeag stream; to revive the charter of the European and North American Railway, and extend the time for locating the same.

THE PERPLEXED HOUSEKEEPER.

BY MRS. F. D. GAGE.

I wish I had a dozen pairs
Of hands this very minute;
I'd soon put all these things to rights—
The very deuce is in it.

Here's a big washing to be done,
One pair of hands to do it,
Sheets, shirts and stockings, coats and pants,
How will I e'er get through it?

Dinner to get for six or more,
No loaf left o'er from Sunday
And baby cross as he can live—
He's always so on Monday.

And there's the cream, 'tis getting sour,
And must forthwith be churning,
And here's Bob wants a button on—
Which way shall I be turning?

'Tis time the meat was in the pot,
The bread was worked for baking,
The clothes were taken from the boil—
Oh dear! the baby's waking.

Hush, baby dear! there, hush sh-sh!
I wish he'd sleep a little,
Till I could run and get some wood
To hurry up the kettle.

Oh dear! if P— comes home,
And finds things in this pother,
He'll just begin and tell me all
About his tidy mother!

How nice her kitchen used to be,
Her dinner always ready
Exactly when the noon bell rung—
Hush, hush! dear little Freddy.

And then will come some hasty word,
Right out before I'm thinking—
They say that hasty words from wives
Set sober men to drinking.

Now isn't that a great idea,
That men should take to sinning
Because a weary, half-sick wife,
Can't always smile so *winning!*

When I was young I used to earn
My living without trouble,
Had clothes and pocket money, too,
And hours of leisure double.

I never dreamed of such a fate,
When I, *a-lass!* was courted—
Wife, mother, nurse, seamstress, cook, housekeeper, chambermaid, laundress, dairy-woman and scrub generally—doing the work of six—
For the sake of being supported!

Holloway's Ointment and Pills, the best Remedies in the Union for Diseases of the Skin. The youngest son of Mr. Edward Wright, of Aberdeen, Mississippi, had the misfortune to be afflicted with a most malignant disease of the skin, which rendered the child's life one of misery and suffering. As the mother had tried every remedy likely to benefit him without receiving the desired result, she became ultimately worn out with trouble and anxiety in the matter, and was lamenting, the same to a friend, who recommended Holloway's Ointment and Pills, which, the mother commenced using, and by persevering with the same for six weeks, the child was completely cured.

Britain.

Thursday, Jan. 31. The [illegible] opened [Par]liament with usual ceremonies.

The persons most noticed [illegible] the gor[geous] assemblage in the House of Lords, wer[e] Buchanan in citizen's dress, the Turkish [Min]ister, because he wore a fez, [and] the [illegible] ambassador, because of his color.

In House of Lords, Earl [illegible] moved [the] address. Earl Abingdon seconded. Earl [illegible] by would not oppose, but considered the speech bare, cold and meagre. [illegible] ought th[illegible] referred to the state of America, India an[d] colonies, and to the fall of Kars. Furth[er], carrying out the enlistment scheme, Go[vern]ment, he conceived, had [illegible] the sp[illegible] the municipal law of the United States, a[nd] hoped that the apology would be received [illegible] regretted, however, that there was not [a con]ciliatory paragraph introduced into the sp[eech] in reference to the subject. The whole s[illegible] he said was redolent of [illegible] cruel.

Earl of Clarendon replied [illegible] follows [illegible] wish to take an early opportunity of re[illegible] to the state of our relations with the U[nited] States. In my opinion there can be no [illegible] as to the common sense view of the obli[gations] of the Clayton-Bulwer treaty, and yet, it [illegible] on the interpretation of that treaty that [a dif]ference of opinion has arisen. In such [illegible] correspondence is useless, and I lost no t[ime] offering to refer the question to the arbi[tration] of any third power—both sides agreeing [to be] bound by the decision. That offer has n[ot] been accepted. It has been renewed, [and I] hope that upon further consideration, the [illegible] Government will agree to it.

In respect to recruiting in the United [States] it would not have acted [illegible] to so[illegible] allude to it [illegible] this subject, inasmuch [as the] correspondence must have to be produ[ced] [illegible] correspondence still continues. The m[illegible] cent demand of the Government of the [illegible] arrived only two days ago, and it is not yet in [a state] to be made public. The [illegible] of the [illegible] was this: At the beginning of the w[ar] numerous foreigners in the United States, [applied] to British Government for permission [to join] the army in the East. In consequen[ce] instructions were sent to the Governor o[f Nova] Scotia, to consider whether persons fr[om the] United States could be [illegible] at Hal[ifax]. These instructions were [illegible] to Mr. [illegible]ton, who was at the same [time] inform[ed] anxious as England was [illegible] still more anxious that there should be [no vio]lation or infringement of the municipal [law of] the U. States. An agency [illegible] was open [illegible] upon complaint being made, Mr. Cramp[ton] [de]sired that it might be made public [illegible] British Government did not recruit o[illegible] soldiers in the United States and b[illegible] known his instructions to Mr. Marcy, wh[o] expressed himself satisfied. Judge Ka[ne] decided that to pay the passage of m[en] foreign ports and then enlist them was no [viola]tion of international law, and those p[illegible] whose passage was paid to Canada, w[ere] volunteers, and were not bound to ent[er] British service.

A correspondence of a hostile dynamic [illegible] ture has taken place between the two g[overnm]ents, but the transactions to which it [illegible] are bygone transactions, and from the [illegible] mencement the British Government h[as] claimed a [illegible] intention of infringing in a[ny way] the law of the United States. With th[e con]duct of Mr. Crampton, his Government [is per]fectly satisfied, for I am convinced that [he has not] intentionally nor unintentionally for ac[tu]ally, did he violate any law of the U. [States].

Lord Clarendon then goes on to say [he] hopes the difficulty is susceptible of a p[eaceful] solution, and that he does not mean an[y slight] by making no mention of America [in the] Queen's speech.

In the House of Commons the Speak[er read] the speech. Mr. Byng moved and Bax[ter sec]onded the address. In reply to [illegible] Admiral [Napier] took his seat the new member from Sout[hwark] and immediately moved for papers rela[ting to] his Baltic expedition. Mr. [illegible] gave [notice] of a resolution to the effect that the e[mploy]ment of agents for enlisting men in foreig[n coun]tries, lowers the dignity of Great Brit[ain and] is calculated to endanger her relations w[ith oth]er States.

Capt. C. R. Welsh, of the ship St. La[illegible] of New York, committed suicide by po[ison at] Liverpool.

TO THE DAILY WHIG AND COURIER

LATER FROM EUROPE.

REMAINDER OF THE CANADA'S NEWS!

The despatch from Halifax, on Sunday, was broken off by the storm. The following is the balance, received yesterday:]

We know nothing of Kars, excepting that the town is occupied by two Russian battalions, whilst another battalion remains in the camp formerly held by Mouravieff's army. The captured guns and munitions of Kars, have been removed to Alexandropol. The sick Turks have been sent to hospital at Otta Roads, where they are shut up by snow.

Letters from within Erzeroum predict scarcity soon in the city.

Iskandar Pacha was seriously wounded December 23.

Persia.

It is the talk that the Porte will send Ahmet Feith to Teheran to mediate in the dispute between Britain and Persia.

Britain.

Thursday, Jan. 31. The Queen opened Parliament with usual ceremonies.

The persons most noticed in the gorgeous assemblage in the House of Lords, were Mr. Buchanan in citizen's dress, the Turkish Minister, because he wore a fez, and the Haytien embassador, because of his color.

In House of Lords, Earl Gosford moved the address. Earl Abingdon seconded. Earl Derby would not oppose, but considered the royal speech bare, cold and meagre. It ought to have referred to the state of America, India and the colonies, and to the fall of Kars. Further, in carrying out the enlistment scheme, Government, he conceived, had evaded the spirit of the municipal law of the United States, and he hoped that the apology would be received. He regretted, however, that there was not a conciliatory paragraph introduced into the speech, in reference to the subject. The whole speech, he said was redolent of water gruel.

Earl of Clarendon replied as follows: "I wish to take an early opportunity of referring to the state of our relations with the United States. In my opinion there can be no doubt as to the common sense view of the obligations of the Clayton-Bulwer treaty, and yet, it is upon the interpretation, of that treaty that a difference of opinion has arisen. In such a case, correspondence is useless, and I lost no time in offering to refer the question to the arbitration of any third power—both sides agreeing to be bound by the decision. That offer has not yet been accepted. It has been renewed, and I hope that upon further consideration, the U. S. Government will agree to it.

In respect to recruiting in the United States, it would not have aided a friendly solution to allude to it from the throne, inasmuch as the correspondence must have been produced, and correspondence still continues. The most recent demands of the Government of the U. S. arrived only two days, and are not yet in a state to be made public. The origin of the trouble was this: At the beginning of the war, numerous foreigners in the United States, applied to British Government for permission to join the army in the East. In consequence, instructions were sent to the Governor of Nova Scotia, to consider whether persons from the United States could, be received at Halifax.—These instructions were notified to Mr. Crampton, who was at the same time informed that anxious as England was for recruits, she was still more anxious that there should be no violation or infringement of the municipal law of the U. States. An agency office was opened, and upon complaint being made, Mr. Crampton desired that it might be made public that the British Government did not recruit or raise soldiers in the United States, and he made known his instructions to Mr. Marcy, who then expressed himself satisfied. Judge Kane had decided that to pay the passage of men to a foreign port and then enlist them was no violation of international law, and those persons whose passage was paid to Canada, went as volunteers, and were not bound to enter the British service.

A correspondence of a not very amicable nature has taken place between the two governments, but the transactions to which it refers are bygone transactions, and from the commencement the British Government has disclaimed any intention of infringing in any way, the law of the United States. With the conduct of Mr. Crampton, the Government is perfectly satisfied, for I am convinced that neither intentionally nor unintentionally nor accidentally, did he violate any law of the U. States."

Lord Clarendon then goes on to say that he hopes the difficulty is susceptible of a peaceful solution, and that he does not mean any slight by making no mention of America in the Queen's speech.

In the House of Commons, the Speaker read the speech. Mr. Byng moved, and Baxter seconded the address, in reply. Admiral Napier took his seat as new member from Southwark, and immediately moved for papers relating to his Baltic expedition. Mr. Baillie gave notice of a resolution to the effect that the employment of agents for enlistment in foreign countries, lowers the dignity of Great Britain, and is calculated to endanger her relations with other States.

Capt. C. H. Welsh, of the bark St. Lawrence, of New York, committed suicide by poison, at Liverpool.

France.

Satisfaction is expressed that Paris is selected as the place of Congress.

Peace is looked upon as certain.

There have been numerous political arrests of members of Marianne section, at Bordeaux.

Paris is extremely gay, and even Faubourg St. Germaine is coming out strong in balls.

The Moniteur publishes a decree fixing the import duty on raw cotton brought from the entrepots by French vessels, at twenty-five francs per hundred kilogrammes, being a reduction of five francs on rate fixed by the tariff of 1853.

Spain.

The official Gazette denies that political arrests have taken place in Cuba.

Austria.

The Emperor of Austria, as a mark of consideration for his illustrious ally Victoria, has pardoned Col. Tarr.

India.

Bombay dates Jan 2d. Great Britain is about to seize the Kingdom of Oude, allowing its King a pension of half a million of dollars, and reducing its army from 80,000 to 15,000, and appointing Gen Outram, Governor.

Canton, Dec 15. Another large fire. Trade in old teas brisker, but few new teas in market, and operations limited. The failure of several Chinese shroffs at Shanghae, has been followed by the suspension of Aspinwall, Mackenzie & Co.—Liabilities $760,000. It was said the teamen had threatened to stop the trade in teas and silks, from Dec 7, in consequence of difficulties from these failures.

President Pierce ordering the arrest of the Kansas Free State Legislature.

NEW YORK, 18th.

A Washington correspondent telegraphs to the Herald: "Gov Shannon left this PM for Kansas. He will travel night and day until he reaches Shawnee Mission. The President desired him to arrive there before the Free State Legislature assembles at Topeka on the 4th of March. He has full power, I understand, to arrest the members of that Legislature, as its meeting is deemed by the powers that be, an overt act, and as such deserving of severe punishment. If he carries out his instructions, it is thought by gentlemen now here, who are residents of Kansas, that there will be a collision between the federal authorities and the Free State men.

Women's Rights Triumphant.

The lower branch of the Nebraska Legislature has passed a bill giving to women the right to vote.

Arrival of Mormons.

528 Mormon emigrants, on their way to Utah, arrived here yesterday, in the ship John J. Boyd, from Liverpool.

Col. Fremont's Land Claim.

A Tribune correspondent says: Notwithstanding the last favorable decision of the Supreme Court, and the understood inclination of the Sec'y of the Interior, when the Commissioner of the Land Office came to issue the patent of Col Fremont, two conditions were inserted which virtually destroyed its whole value. One was a reservation in favor of the rights of third parties, and the other a reservation of the gold mines to the Government. These points cover the practical value of the patent. Col Fremont declining to receive the patent with these limitations, which had no sanction of law, and the Commissioner of the Land Office refusing to comply in the proper form, the matter was carried before the President. He decided this morning that the patent should issue according to the regular usage, and divested of the unauthorized restrictions. Unless some final obstacle be started, the case may be considered closed.

The Canada's news went from this city, Sunday, over the N. Y. and N. O line, via Washington, and the agent of the Associated Press at New Orleans acknowledged its reception at 11 PM.

Steamship Pacific Safe!

NEW YORK, 18th.

A private letter states that the Pacific ball put into the river Shannon.

BOSTON, 18th.

The Agent of the Associated Press at Halifax, was requested to obtain all the particulars possible in regard to the announcement that the Pacific had been heard from, replies as follows:—James Campbell, a young gentleman of this city, just arrived in England, per Canada from Halifax, writes to W. & Co., Murdoch & Co. of Halifax, as follows:

Liverpool, Jan. 28th. The weather here has been very severe during the past week. The Pacific was obliged to put back into the Shannon after on her way out of the Channel, and the Royal Charter Australian steamer was forced to put back to Plymouth."

This is all. No particle of news here to corroborate it."

From Mexico.

A letter from Mexico city, dated Jan 26, states that three brigades of troops, numbering nearly 6000 men, with an ample artillery force, were to leave there in a day or two, to operate against Tamez at Puebla.

WASHINGTON, 18th.

Capt Pendergrast has been ordered to the command of the new steamship Merrimac, vice Gregory, relieved at his own request. If she works as well as anticipated, the trial trip will be continued to Europe.

HALIFAX, 18th.

The steamer Arctic, which went in search of the Pacific, arrived here at 2 PM, under sail with propeller foul. Has not been east of this. No news of the Pacific.

Congressional.

WASHINGTON, Feb 18.

SENATE. Mr Hamlin gave notice of his intention to introduce a bill to amend and consolidate the navigation, revenue, and collection laws.

Mr Wilson offered a resolution, which lies over under the rule, calling on the President for all information as to Kansas affairs, and what measures have been taken to prevent illegal interference with the rights of the people of that Territory, by persons not resident therein.

The Senate resumed the consideration of a resolution calling for the journal of proceedings of the Naval Board.

When a message from the President was announced in reply to the resolution calling for information concerning Kansas affairs. Except the instructions of the Sec'y of War to Col. Sumner, there was little new in the communication—the other documents transmitted having been heretofore published. A letter from Gov Shannon to the President alludes to the condition of affairs as threatening.

There is a letter from Col Sumner to Shannon, dated Dec 5th, in reply to one asking him to come to Lawrence. Col S. wrote that he could march with his command in a few hours, and would meet the Governor at Delaware crossing if required.

The instructions of the Sec'y of War to Colonel Sumner are dated Feb 15th. They direct him to be in readiness to march to the scene of disturbance if the Governor finds the ordinary course of judicial proceedings, and the power vested in the U. S. Marshal, fruitless for the suppression of insurrection or the invasion of armed forces; but it counsels him to act with extreme prudence in the premises.

Mr Toucey expressed his warm approval of the course pursued by the Executive, and hoped he would be sustained by every law abiding man.

Mr Wilson said the correspondence totally misrepresented affairs in Kansas. He said the border ruffians had carried the elections there at the point of the bowie knife. He had not concluded, when the Senate adjourned.

HOUSE. Mr Wakeman presented a memorial from the N. Y. Chamber of Commerce, for an appropriation for the improvement and repair of the public warehouses at Quarantine.

Also, from the same, for an extension of the reciprocity principle between the U. S. and Canada. Referred to the Com. on Commerce.

15,000 copies of the Treasury Report, 20,000 of the President's Annual Message and accompanying documents, and 10,000 of the Report of the Coast Survey, and 60,000 of the Mechanical portion of the Patent Office Report; were ordered to be printed.

On motion of Mr. Grow, the President was requested, if not incompatible with the public interest, to transmit to the House a copy of the laws passed by the Legislature of Kansas, and copies of all the Executive proceeding, and correspondence of the Governor of that Territory.

Mr. Lane, delegate from Oregon, introduced a bill to enable the people of that Territory to form a State Government, preliminary to admission into the Union.

Referred to the Committee on Territories.

Mr. Daren introduced a bill re-establishing the boundaries of Kansas, and prohibiting slavery in that territory and Nebraska. Referred to Committee on Territories. Adjourned.

Detention of Trains by the Storm.

BOSTON, Feb. 18.

The Canada was not signalled by the lower telegraph station at 8 o'clock; hardly probable she will arrive before morning.

No trains arrived from Portland to-day.

PHILADELPHIA, Feb. 18.

Two secret sessions of the National Council were held to-day, in Franklin Hall. A large number of delegates were present. all sections of the Union being represented.

KENNEDY'S
MEDICAL DISCOVERY.

The Greatest of the Age!

MR KENNEDY of Roxbury has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common pimple He has tried it in over eleven hundred cases, and never failed except in two (He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston

Two bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system yet it is now a fixed fact. If you have a humor it has to start There are no ifs nor ands about it, suiting some cases but not yours He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts He gave it to children a year old, to old people of sixty; and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week — There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to

No change of diet ever necessary. Eat the best you can get and enough of it

ROXBURY, Sept 19, 1853

TESTIMONY FROM MAINE

Capt Daniel Abbott, Brooklin, Maine, July 16, 1853, says "I was taken sick one year ago last April, upon my passage from Havana to Charleston S C At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of "Hoofland s German Bitters' in it, I sent for some immediately. This was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man— I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since I have now given up going to sea and reside in this place where you should have an agency, as you could sell large quantities of it"

Jos B Hall & Co, Presque Isle, Aroostook Co, Maine, April 24, 1854, say "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters We think Mr. Clark to be a man of veracity, and have no doubt of the truth of his story"

Messrs *Jos B Hall & Co*—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle* She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years — She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters, WILLIAM CLARK.

Salmon Brook, Aroostook Co, Me.

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

HELMBOLD'S
HIGHLY CONCENTRATED
Compound Fluid Extract Sarsaparilla,
—FOR—

Purifying the Blood removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional disease arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula Salt Rheum, Scald head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends Numerous preparations of Sarsaparilla and Bucha, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstrua in successive operation to take up the extractive matters, and, in consequence, are most frequently improperly made, and not unfrequently much impaired, if not rendered totally inert, by the injudicious and unskillful management of those unacquainted with pharmaceutical preparations It is, therefore, of the highest consideration and importance to the public, and to the faculty, that there should be standard preparations of uniform strength and possessing the most advantages To effect this, and obviate the evil alluded to, I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Bucha, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made Two table spoonsfulls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equals in strength one gallon of Syrup Sarsaparilla or decoction, as usually made

—PRICES—

Fluid Extract Bucha, $1 per bottle, or 6 for $5
